## Product Overview & Guides

WypAll® Critical Clean WetTask™ Wipers for Bleach, Disinfectants, and Sanitizers are an alternative to unsanitary and sometimes hazardous open buckets of chemicals. They're built for critical tasks, such as preparing cleaning surfaces in sensitive environments (such as health care). The meltblown wipers are compatible with Quaternary Amine disinfectants, bleach and sanitizers. When you choose this space-saving system, you get both the WypAll® Critical Clean WetTask™ Wipers for Bleach, Disinfectants, and Sanitizers and a small closed-top bucket. Then add the chemical solution you prefer – from bleach-based cleaners to sanitizers. It's simple, hygienic and safe. The enclosed system also helps eliminate exposure to chemical vapors and splashes. The WetTask™ closed bucket and wet wiping system can cut solvent usage by 20% and reduce VOC emissions for a safer, more cost effective workplace. This system with disposable wipers is the ideal alternative to using an open bucket and eliminates the need for laundering dirty, contaminated towels and cloth rags. Choose WypAll® Critical Clean WetTask™ Wipers for Bleach, Disinfectants, and Sanitizers and upgrade your cleaning protocol.

6 rolls / case, 140 sheets / roll, 840 sheets / case; 12" x 6" each; free WetTask™ bucket included

WypAll® Critical Clean WetTask™ Wipers for Bleach, Disinfectants, and Sanitizers feature durable meltblown construction, for saturated wiping with sanitizers, bleach and disinfectants; just pour in the cleaner you choose

Cuts solvent usage by 20% using the WetTask™ closed bucket; significantly reduces solvent waste and VOC emissions

Enclosed system also helps eliminate exposure to chemical vapors and splashes

The enclosed bucket system (with disposable wipers) is an ideal alternative to an open bucket and eliminates the need for laundering contaminated cloth rags
